Subject:
Proposal for Additional Engineering Services
Columbia Street Phase II Sewer Separation and Green Infrastructure Project

Water

Date:
March 28, 2023

Dear Mr. Nathan:

Contact:
Michael Kosier

Arcadis of New York, Inc. (Arcadis) is pleased to present this proposal for professional engineering services related to additional construction administration and resident inspection time needed to complete the Columbia Street Phase II Sewer Separation and Green Infrastructure Project in 2023.

Phone:
518-250-7304

Email:
michael.kosier@arcadis.com

Project Background

The City owns and operates a combined sewer system that is party to an Order on Consent between the New York State Department of Environmental Conservation (NYS DEC) and the Albany Pool Communities (APCs), comprised of the cities of Albany, Troy, Cohoes, Rensselaer, Watervliet, and the Village of Green Island. The June 2011 Long Term Control Plan (LTCP) and 2013 Supplemental Documentation developed by the APCs, and approved by NYS DEC, identified Columbia Street in Cohoes as an area to separate storm and sanitary sewers as one of several measures needed to achieve the combined sewer overflow abatement required by the Order on Consent.

The Schedule of Compliance included in the Order on Consent that required the Columbia Street Phase II Sewer Separation and Green Infrastructure Project be completed by December 15, 2022. Design for the Project was completed in August 2021; and the Project was then bid, awarded, and the stormwater infrastructure was installed such that the order on consent schedule of compliance was met.

Garry Nathan, PE
 City of Cohoes
 March 28, 2023

However, due to seasonal limitations, construction contract times were extended to allow for construction completion in the spring of 2023. Construction activities remaining include, but are not necessarily limited to trash rack replacement, repair of the existing wall near the outlet structure, completion of green terraces along Wilmer Avenue and Columbia Street, plantings, final paving, sidewalk replacement, and punchlist work.

The Arcadis scope of services was previously amended to include construction administration and resident engineering services through November 13, 2022. However, since then the construction final completion date was extended to June 15, 2023; and accordingly, Arcadis is proposing to amend our scope of services to be commensurate with the current contractor schedule.

If acceptable, Arcadis will perform the additional scope of services on a lump sum basis for construction administration through June 15, 2023, and 2023 construction inspection will be compensated on a not-to-exceed time and expenses basis using the attached 2023 rate schedule. A breakdown of additional costs by task is provided below.

Task	Basis	Additional Compensation
Task 6.1 through 6.8 – 2023 Construction Administration	Lump Sum	\$24,850
Task 6.9 – 2023 Construction Inspection	Not-to-Exceed	\$39,900
TOTAL:		\$64,750

It is noted that the not-to-exceed budget for additional construction inspection under Task 6.9 represents the maximum anticipated cost for this task, and Arcadis will work with the City to provide part-time inspection, when appropriate. Should the actual cost be less, the City will only be charged for the actual time and expense costs incurred.

March 28, 2023

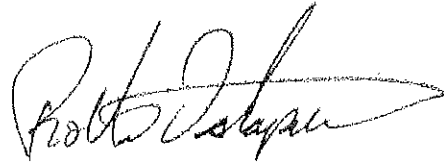

We appreciate the opportunity to continue supporting the City on this important project and look forward to a successful completion of the Columbia Street Phase II Sewer Separation and Green Infrastructure Project. Please feel free to contact us if you should have questions or would like to discuss our proposal in detail.

Sincerely,

Arcadis of New York, Inc.

This proposal and its contents shall not be duplicated, used or disclosed — in whole or in part — for any purpose other than to evaluate the proposal. This proposal is not intended to be binding or form the terms of a contract. The scope and price of this proposal will be superseded by the contract. If this proposal is accepted and a contract is awarded to Arcadis as a result of — or in connection with — the submission of this proposal, Arcadis and/or the client shall have the right to make appropriate revisions of its terms, including scope and price, for purposes of the contract. Further, client shall have the right to duplicate, use or disclose the data contained in this proposal only to the extent provided in the resulting contract.

All rates presented apply to services rendered during calendar year 2023, for this project, and are subject to adjustment on January 1 of each subsequent year.

In addition to these fees, clients will also be responsible for any sales or value-added taxes that may apply to engineering services performed.

Hourly Rates: Charges for services provided will be in accordance with the following schedule:

Classification	Hourly/Rate
GEC Technician	60
Grade 4	95
Grade 5	105
Grade 6	120
Grade 7	140
Grade 8	160
Grade 9	185
Grade 10	210
Grades 11 and 12	255

Other Direct Costs: All expenses incurred for a project, except in-house services specified below, from outside vendors will be invoiced at cost plus 10%. These items may include, but are not limited to: shipping charges; printing; supplies; equipment; traveling expenses; special insurance; licenses; or permits.

Subcontractors: All subcontractor expenses incurred for a project will be invoiced at cost plus 10%.

In-house services consist of:

- Transportation - In accordance with current federal mileage reimbursement rate.
- Laboratory – unit prices for sample testing, handling, and storage are available for individual assignments.
- Equipment - a schedule of usage rates for specialty equipment is available for field assignments

Payment: All invoices are due and payable within 30 days of billing date. Any attorney's fees, court costs, or other related expenses incurred in collecting delinquent accounts shall be paid by the client. Delinquent bills are subject to finance charges of 1.5% per month.
